DETAILED ACTION

Allowable Subject Matter

1. Claims 1-18 are allowed.

The following is an examiner's statement of reasons for allowance:

The prior art fails to disclose or suggest a motivation for defining a boot process that entails the steps of loading legacy-free drivers, terminating the loading process based upon a legacy boot option and loading legacy free firmware. Therefore it would not have been obvious at the time of invention to a person of ordinary skill in the art to modify current boot processes to include the steps described in the claims above.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Response to Arguments

2. Applicant's arguments, see Pages 7-8, filed 5/19/05, with respect to Claims 15-18 have been fully considered and are persuasive. The rejection of Claims 15-18 has been withdrawn.

Applicant has amended Claim 15 to incorporate subject matter that has been indicated as allowable in the previous Office Action. Accordingly, the changes made to Claim 15 puts it, and the claims upon which it depends, in condition for allowance.
